

# **Quality Assurance Specialist- Data**

## **About Dogico**

Dogico is a small Canadian Software and Data Pipeline Development company in operations since 1998.

Our mission is to seize opportunities to use our competencies, processes and creativity to continuously create value for our clients.

Over the years, Dogico has taken responsibility for the planning, development, maintenance and evolution of groups of Applications and Data Pipelines following an “agile offloading” approach where clients get the benefits of outsourcing without the overhead and cost while keeping strict control on their strategic assets.

## **Reports To**

Data Practice Manager

## **Summary**

The Quality Assurance Specialist- Data ensures that the Data Pipeline behaves according to the specifications both when changes are to be released and on an ongoing basis. The candidate will be responsible for Quality Assurance activity and participates in the improvements of the Quality and Support Processes. They will also do minor changes to the Pipeline to adjust for issues identified in the normal operations of the Data Pipeline.
